

STATE GENERAL HOSPITAL & MEDICAL COLLEGE

Department of Orthopaedics & Traumatology

Fort Road, Bangalore, Karnataka - 560002

OPD TICKET / DISCHARGE SUMMARY

OPD Reg No: SGH-OP-2023-88910 Date: 15-Sep-2023

Patient Name: Mr. Subramanian Age/Sex: 65 Yrs / Male
Iyer

Ward/Bed: Ortho Male Ward - Consultant: Dr. Rajesh Kannan, MS
Bed 42 (Ortho)

Address: 12/4, Malleshwaram 8th Cross, Bangalore

1. Clinical Presentation

Patient was brought to the casualty on 10-Sep-2023 with a history of slip and fall in the bathroom. Complained of severe pain in the right hip and inability to bear weight or move the right lower limb. On inspection, the right lower limb was shortened and externally rotated. No history of loss of consciousness, head injury, or vomiting.

Past Medical History: Known case of Primary Hypertension (on Tab. Amlodipine 5mg). No diabetes.

2. Investigations & Findings

X-Ray Pelvis with Both Hips (AP View): Revealed an intertrochanteric fracture of the Right Femur (Boyd & Griffin Type II). No other bony injuries noted.

Routine Pre-Op Profile:

Hb: 11.2 g/dL | TLC: 8,400/cumm | Platelets: 2.1 L/cumm
RBS: 110 mg/dL | Serum Urea: 28 mg/dL | Serum Creatinine: 0.9 mg/dL
ECG: Normal sinus rhythm. 2D Echo: LVEF 55%, mild diastolic dysfunction. Cleared for surgery under spinal anesthesia.

3. Surgical Details

Date of Surgery: 11-Sep-2023

Procedure: Closed Reduction and Internal Fixation (CRIF) with Proximal Femoral Nail (PFN) - Right side.

Anesthesia: Spinal Anesthesia.

Surgeon: Dr. Rajesh Kannan.

Intra-op Findings: Fracture reduced adequately under C-arm guidance.

PFN inserted and locked dynamically. Hemostasis achieved. Blood loss was approximately 150 ml. Procedure uneventful.

4. Post-Operative Course

Patient received IV antibiotics (Ceftriaxone) for 3 days post-op. Wound inspected on POD 3, dressing is dry and intact. Drain removed on POD 2. Patient was mobilized non-weight bearing with a walker. Analgesics administered as per protocol.

5. Discharge Medications

Medicine Name	Formulation	Dosage	Duration
Tab. Cefuroxime 500mg	Antibiotic	1-0-1	5 Days
Tab. Zerodol-SP	Analgesic	1-0-1	5 Days (After food)
Tab. Pan 40mg	Antacid	1-0-0	5 Days (Empty stomach)
Tab. Amlodipine 5mg	Antihypertensive	1-0-0	Continue long term
Cap. Shelcal-HD (Calcium)	Supplement	0-1-0	30 Days

6. Post-Operative Rehabilitation Protocol (Physiotherapy)

Strict adherence to the following physiotherapy regimen is required to restore mobility and prevent complications such as DVT and joint stiffness:

1. **Ankle Pumps:** Move the foot up and down vigorously. Do 20 repetitions every hour while awake.
2. **Quadriceps Sets:** Tighten the thigh muscle, press the knee flat against the bed, hold for 5 seconds. Repeat 10 times, thrice daily.
3. **Gluteal Sets:** Squeeze buttocks together, hold for 5 seconds. Repeat 10 times, thrice daily.
4. **Heel Slides:** Slide the heel towards the buttocks, bending the knee, and then straighten it. Do this 10 times, twice daily.
5. **Ambulation:** STRICT Non-Weight Bearing (NWB) walking with the help of a walking frame/walker for the next 4 weeks. DO NOT put weight on the right leg.

7. Precautions & Warning Signs

Avoid squatting or sitting cross-legged on the floor. Use a western commode or commode chair. Sleep on the back; if sleeping on the side, place a pillow between the legs.

Report to the casualty immediately if you experience:

- Sudden swelling or severe pain in the calf muscle.
- Fever > 101°F or soakage/pus discharge from the surgical wound.
- Shortness of breath or chest pain.

8. Follow-up

Suture removal is scheduled on 25-Sep-2023 (POD 14) in the Ortho OPD, Room No. 12. Bring fresh X-Ray of Right Hip AP & Lateral views at 6 weeks follow-up.

9. Billing & Subsidies

Govt Hospital Registration Fee	₹ 20.00
Ward Charges (5 days @ ₹50/day)	₹ 250.00
Surgical Procedure (Subsidized under State Scheme)	₹ 0.00
Implants Cost (PFN - Titanium)	₹ 4,500.00
Laboratory & X-Ray Charges	₹ 350.00
Pharmacy (Govt Supply + Outside Purchase)	₹ 800.00
Total Amount Payable	₹ 5,920.00
